ABOUT THE PROJECT

Mixing the old with the new is what this project was all about. The new owner of the Goodyear® Tire Center expanded his facility to include a tire showroom and office area, convenience items/groceries and petroleum.

PROJECT FEATURES

- Playful store front utilizing ceramic tile with a black/white checkerboard and red stripe on a black background marking the convenience store and tire showroom entrances.
- Glass block backlit with a neon Phillips 66® sign further accents the convenience store entrance.
- Seating for 12 available in the convenience center for food customers.
- Self-service food equipment allows for a quick snack while waiting for those new tires.
- A large picture window between the tire showroom and convenience store allows waiting customers to browse in the store while remaining available to service personnel.
- Goodyear® Tire Center features a large office area, complete with a sky-lit conference room, to accommodate sales and service personnel.

PROJECT SPECIFICATIONS

- Utilizes Butler® Manufacturing Widespan™ Building System and MR24™ Roof System
- 2,923 square foot convenience store
- 3,410 square foot office space
- 1,730 square foot tire shop
- 866 square foot tire showroom
